SUBJECT: Acceptance of Proposal and Purchase Offer for P Street Properties

RECOMMENDATION:

Select a proposal for purchase and development of the P Street Properties and authorize the Successor Agency to execute a Purchase and Sale Agreement.

BACKGROUND AND OVERVIEW:

Assembly Bill ("AB") x1 26, amended by AB 1484 and codified in the California Health & Safety Code ("H&SC") requires successor agencies to prepare a Long-Range Property Management Plan ("LRPMP") that addresses the disposition and use of the real properties of the former redevelopment agency. The Firebaugh Successor Agency ("Successor Agency") prepared an LRPMP, which was approved by the Oversight Board on September 19, 2013 and by the Department of Finance ("DOF") on February 10, 2014. In the LRPMP, the Successor Agency identified two adjacent properties on P Street to be sold. Successor Agency Staff issued a Request for Proposals to solicit offers and plans to purchase and redevelop the P Street Properties. The Successor Agency received and evaluated two proposals submitted in response to the RFP. The Successor Agency scored both proposals based on the rating system delineated in the RFP and has selected its top bidder.

ANALYSIS:

The P Street Properties, also known as Assessor’s Parcel Numbers 008-075-11 and 008-075-03, were listed on the Successor Agency’s LRPMP as properties to be sold. The proceeds from that sale would go to the taxing entities. The Successor Agency received two offers to purchase the P Street Properties after the LRPMP was approved by DOF. However, in order to fulfill their obligations under the Property Disposition Procedures, which were approved by the Successor Agency Board and Oversight Board, and to give all interested parties a fair opportunity to purchase and redevelop the P Street Properties, the Successor Agency issued an RFP. The RFP was posted on the City’s website and sent directly to parties that expressed interest in the P Street Properties. Both parties submitted proposals by the deadline of July 31, 2014. The evaluation criteria for proposals were clearly outlined in the RFP. After the close of the submittal period, the Successor Agency reviewed both proposals and scored them based on the evaluation criteria. A summary of the proposals, the scoring, and general observations is included below. The full proposals are included as Attachment 1 and the Score Sheets as Attachment 2.

Fresno County Housing Authority
The Fresno County Housing Authority originally proposed to construct the Gateway Project on the P Street properties prior to redevelopment dissolution. The properties were denied transferred to the Housing Successor
Entity as housing assets by DOF and thus the Gateway project never came to fruition. The Housing Authority is proposing to construct the same project now. This consists of demolishing the existing buildings and building a two-story apartment complex consisting of 30 1- and 2-bedroom affordable senior units. The Gateway project was already fully entitled prior to redevelopment dissolution. The project continues to meet, or has already addressed all zoning and General Plan restrictions.

The Housing Authority is offering $360,000 based on a property appraisal conducted in February 2014. The Housing Authority would apply for Low Income Housing Tax Credits ("LIHTC") to help fund the project. Execution of the purchase agreement is contingent upon an award of LIHTC. Ultimately, development of the project is estimated to cost $6.3 million. The Housing Authority expects to complete the project in late 2016 or early 2017 depending on the LIHTC application process.

The Housing Authority estimates that 75 jobs will be created from development of the Gateway Project. It will also fulfill an unmet need for senior housing. However, the project will ultimately be tax-exempt because it will be 100% affordable housing. Thus, there are some short-term economic benefits for the City and taxing entities and fewer long-term benefits.

Successor Agency Staff gave the Housing Authority 74 out of 100 points for the Gateway Project proposal. The proposal was complete and thorough and the proposed project will be a high-quality, needed addition to the City of Firebaugh. In addition, the Housing Authority has a good track record with successful affordable housing developments. On the other hand, the Housing Authority lost points because the proposed purchase price was lower than the competing offer, the project is contingent upon the Housing Authority receiving LIHTC, and the project will ultimately be tax-exempt. Despite these drawbacks, the project still has significant economic benefits and could spur taxable development throughout the City.

Boardwalk CA, LLC
Boardwalk CA, LLC contacted the Successor Agency about the P Street properties after the LRPMP was approved by DOF. They then went ahead and submitted a proposal in response to the RFP. The Boardwalk CA project proposes to renovate the existing P Street structures and produce 21 rehabilitated multi-family dwelling units. Successor Agency Staff is concerned about this approach because the existing structures are in very poor condition and have been an eyesore to the community for years. A rehabilitation project may not be the best solution to the existing blight.

Boardwalk CA is prepared to offer $502,000 for the properties and expects to spend $200,000 - $250,000 on renovations. The project could be complete in as little as 2-3 months. The purchase offer is higher than the Housing Authority’s offer, which provides a larger economic benefit to the City and taxing entities. However, Boardwalk CA did not call out any other economic benefits the City or taxing entities could expect to receive such as job creation.

Successor Agency Staff awarded Boardwalk CA’s proposal 60 out of 100 points. Boardwalk CA received high marks for the purchase price and timeframe for completion. In addition, the Boardwalk CA project would be taxable as opposed to the Housing Authority project. This would result in some long-term economic benefits to the City and taxing entities. However, points were deducted in all other areas because the proposal left many required sections unaddressed. It was often hard to know what other potential outcomes could be expected from the Boardwalk CA project.

Successor Agency Selection
Successor Agency Staff scored The Fresno County Housing Authority’s proposal higher than the Boardwalk CA proposal. At their meeting on August 18, 2014, the Successor Agency Board concurred with Staff’s analysis and agreed to formally recommend the Oversight Board accept The Fresno County Housing Authority’s purchase offer.
Relocation Costs
In the RFP, the Successor Agency disclosed that there are three tenants still living on the P Street Properties. These tenants will have to be relocated upon development of the Gateway Project. This can often be a very complicated and costly endeavor. The Successor Agency is not in a financial position to accept that responsibility and feels the Fresno County Housing Authority is in a better position to do so, not only financially but also because they have experience with the process. Relocation of existing tenants was not specifically addressed in the RFP or in either of the proposals. However, it seems prudent to address it at this time and only accept the Fresno County Housing Authority’s offer with the condition that the Fresno County Housing Authority must agree to pay all applicable tenant relocation costs and take full administrative responsibility for the process.

Purchase and Sale Agreement
The Fresno County Housing Authority included a Purchase and Sale Agreement in their proposal (the Agreement has been included as Attachment 3). Staff recommends the Oversight Board authorize the Successor Agency to execute the contract as long as the Purchase and Sale Agreement in amended to state that the Fresno County Housing Authority will pay all costs associated with relocation of the current tenants residing on the P Street Properties and take full responsibility for the executing the relocation.

FISCAL IMPACT:
Proceeds from the sale of the P Street Properties will be distributed to the taxing entities through the Recognized Obligation Payment Schedule Process.

PROPOSALS FOR P STREET PROPERTIES
July 23, 2014

Kenneth McDonald
City Manager
City of Firebaugh
1133 P Street
Firebaugh, Ca 93622

Dear Mr. McDonald,

The purpose of this letter is to respond to the RFP issued on June 23, 2014 for the purchase and redevelopment of 1264 and 1238 P Street, a property currently owned by the Successor Agency of the Redevelopment Agency of the City of Firebaugh and the Oversight Board to the Successor Agency (“Successor Agency”). The subject contiguous properties are identified as 1238 P Street, Firebaugh, CA (APN 008-075-03) and 1264 P Street, Firebaugh, CA (APN 008-075-11). On May 29, 2012, the Successor Agency entered into a Disposition and Development Agreement (“DDA”) with the Housing Authority of Fresno County to transfer the subject properties for development of a 30 unit affordable senior project and associated community building space known as the “Firebaugh Gateway” project, which was later dissolved. The Fresno Housing Authority obtained development entitlements, completed environmental reviews, prepared architectural plans and secured a $500,000 Affordable Housing Program grant from the Federal Home Loan Bank of San Francisco.

Please find our attached proposal for your review. The Fresno Housing Authority desires to continue pursuing this much needed project and looks forward to discussions about acquiring the subject properties.

Please feel free to contact me at (559) 443-8475 or via email at pprrince@fresnohousing.org. I look forward to a response from the review committee in regards to potential next steps in the acquisition process.

Thank you,

Preston Prince
CEO/Executive Director
Housing Authority of Fresno County, California
1. DESCRIPTION OF THE PROPOSED PROJECT
FIREBAUGH GATEWAY

PROJECT DESCRIPTION & VISION

The Fresno Housing Authority is pleased to propose a two-story, affordable, senior housing development with community space in downtown Firebaugh. The project will consist of 30 units (1BR and 2BR) of housing for income-eligible seniors. The subject site consists of two existing parcels (APNs 008-075-03 and 008-075-11) that are each developed with existing multifamily residential dwellings. The proposed project would demolish these buildings and build 30 new senior units. Specifically, the project will be situated along P Street and 13th Street. A parking lot will be situated to the rear of the building and will take access from the alley that runs parallel to P Street. This alley connects 13th Street in the south to 12th Street to the north.

The site design has been developed in concert with community stakeholders and has been refined with input from residents during community meetings. A copy of the discussion documents presented at that meeting is attached in Section 4 of the proposal. The project will target seniors with household incomes from 30%-60% of area median income.

The project will include many amenities including greenspace for the seniors in a landscaped area situated at the rear of the building so that the residents can enjoy the outdoors. The project will also include community space for the seniors and other community members to utilize and enjoy. There will be an on-site property manager to facilitate services for the residents and respond to questions and ideas that may arise. This development will help eliminate a blighted parcel of land within the local neighborhood and provide much needed affordable rental housing for seniors.
ENVIRONMENTAL IMPACT AND CITY'S GOALS

At the August 6, 2012 City of Firebaugh City Council meeting, a Negative Declaration was adopted (Resolution No. 12-50) for the project which concluded the project will not have significant impacts on the environment. In addition and in collaboration with the City of Firebaugh staff, the Fresno Housing Authority successfully completed a general plan amendment and changed the zoning required for the development of the project. The Planning Commission recommended to City Council the following resolutions at its meeting on July 30, 2012.

- Resolution PZ12-07 (adopting the environmental findings of no significance for the project)
- Resolution PZ12-08 (recommending approval of a General Plan land use amendment and a zone change for the site)
- Resolution PZ12-09 (recommending approval of a Density Bonus for the project)
- Resolution PZ12-10 (approving a Conditional Use Permit for construction and operation of the project).

All recommended actions including the zone change and general plan amendment were approved on August 6, 2012 at the City Council meeting (please see attached City Council Resolutions 12-50, 12-51, 12-52). The design of the project will integrate with the local neighborhood which was discussed at the design review meeting with community members on July 25, 2012.

In summary, the project has no potential significant environmental impacts and the project has all the necessary entitlements to move forward.

This project is expected to cost $6.3 million to develop and would be financed utilizing low income housing tax credits (LIHTC) and additional sources from the Fresno Housing Authority or competitive grants initiated by the Housing Authority. The LIHTC program is a competitive program that facilitates a public/private investment and the introduction of an outside financial investor and lenders into the financing plan. Fresno Housing has relationships with many tax credit investors and strong partnerships with investors and lenders such as PNC Bank, Union Bank of California and Rabobank, among others. The projected sources and uses associated with this project are listed below. This is a draft and subject to change.

Assumptions & Limiting Conditions

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of being under responsible ownership. The future operation of the property assumes skilled and adequate management but are not represented to be historically based.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.

Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency or other data sources, and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantee, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.

If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their customary value. These separate values of the land and improvements must not be used in combination with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value and should not be used as such.

The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, presence of hazardous substances, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unseen conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous substances, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.

- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. All information furnished regarding rental rates, lease terms, or projections of income and expense is from sources deemed reliable. No warranty or representation is made as to the accuracy thereof.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice and any applicable federal, state or local laws.
- If this appraisal is used as a basis for any action by the party to the appraiser-client relationship, any court proceeding arising from this report from the party does not become a party to the appraiser-client relationship. Any person receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser is a professional and approval must be obtained before this appraisal report can be conveyed to anyone in the public, through advertising, public relations, news, sales, or by means of any other media, or by inclusion in a private or public database.
- Appraisal of real property is not a 'property inspection' and should not be considered as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or structural conditions that are not readily apparent. The presence of such conditions or defects or the advisability of additional observations or recommendations should not affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage in the appropriate type of expert to investigate.
- Values for various components of the subject parcel and improvements or the ratio derived by one or both approaches to value as contained within this report are valid only when making a summation or final opinion of value and are not to be used independently for any purpose and must be considered invalid if so used. Definitions:

Definition of Market Value *:
Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a sale at the time of valuation. The price should result from transactions wherein the parties, not acting under duress or compulsion, were acting prudently and knowledgeably, and wherein the price is not affected by undue influence. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:
1. Buyer and seller are typically motivated;
2. Both parties are well-informed or well-advised, and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* This definition is from regulations published by federal regulatory agencies pursuant to Title XII of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990; by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994 and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

(b) Pursuant to the Seller’s Long-Range Property Management Plan dated September 10, 2013, (the “PMP”), the Seller is disposing of certain properties for which it is the owner of record, including the Land.

(c) An element of Buyer’s mission is to provide affordable housing to the people of Fresno, including through the construction (either by Buyer or by limited partnership of which Buyer or an affiliate thereof is a partner) of a twenty (20) to thirty-four (34) unit project, together with a community building, to be commonly known as “The Firebaugh Gateway Project” (the “Project”).

(d) Seller desires to sell the Property (as defined below) to Buyer, and Buyer desires to purchase the Property from Seller on the terms and conditions set forth below, for Buyer’s development of the Project pursuant to the Buyer’s Business Plan (as defined below).

(e) Buyer’s business plan ("Buyer’s Business Plan") is to (i) develop the units, and (ii) own, finance and operate the Project as a low-income housing tax credit project pursuant to Section 42 of the United States Internal Revenue Code (the "Code"), either directly or through a limited partnership of which Buyer or an affiliate thereof is a partner.

In consideration of the foregoing and of the covenants and provisions contained in this Agreement, the parties agree as follows:

1. Agreement to Sell and Purchase Property. Seller agrees to sell to Buyer, and Buyer agrees to purchase from Seller, subject to the terms and conditions of this Agreement, the Property.

(a) The purchase price for the Property (exclusive of cash accounts constituting a part of the Property, if any) shall be three hundred sixty thousand and 00/100 Dollars ($360,000) (the “Purchase Price”), which amount represents the appraised value of the Property in its condition on the Closing Date.

4. Closing; Closing Costs.

4. EXPLANATION OF ECONOMIC BENEFITS
FIREBAUGH GATEWAY

BENEFITS TO THE COMMUNITY

The subject site consists of two existing parcels (APNs 008-075-03 and 008-075-11) that are each developed with existing multifamily residential dwellings. The proposed project would demolish these buildings and build 30 new senior units. The proposed project features a two-story building situated along the P Street and 13th Street frontages of the site. A parking lot will be situated to the rear of the building and will take access from the alley that runs parallel to P Street. This alley connects 13th Street in the south to 12th Street to the north. A landscaped area will be situated at the rear of the building and will provide green space for residents to enjoy the outdoors.

This development will help eliminate a blighted parcel of land within the local neighborhood and provide much-needed affordable rental housing for seniors. The project includes well-designed landscaping and a community building that will bring services to the senior community and other residents of Firebaugh. The community building will include a computer lab, community multi-purpose room with management offices and open space for the residents.

The construction of the project will bring additional economic activity to the community and help create jobs. According to Econsult Corporation, it is estimated that 26 jobs are created for every $1,000,000 of construction brought to communities by Housing Authorities. It's estimated that over 75 potential jobs could be created by the Firebaugh Gateway development. The construction of the project will have additional multiplier effects for other local businesses as well and may increase local property values and influence other owners to make improvements to their properties.

The project shows a demand for over 61 units of senior housing in the market area and there are currently no unsubsidized senior housing developments in the area. The Housing Authority of Fresno County has participated in community meetings over the past few years. Each meeting was positive, and input has been taken into account during the design process (please see attached agenda/powerpoint).

About the Buyer: Boardwalk, CA LLC is a family owned and operated farming operation, farming 6,000 acres in Madera County, CA. Recent real estate purchases include the Firebaugh Motel a 12,217 sq foot Motel/Apt/SFR property located in Firebaugh, CA and a 20,000 square foot Commercial Retail Property in Chandler, AZ.

Purchase Price: $502,000 cash payment

Deposit: Buyer will deposit $30,000 into Escrow paid within 72 hours of acceptance, which deposit shall become non-refundable after due diligence and satisfaction of all contingencies and conditions.

Due Diligence Contingency Period: Buyer shall have 30 days, during which Buyer shall conduct due diligence. This purchase is contingent upon Buyer approval of the conditions indicated by the diligence material and Buyer independent inspections and investigations.

Diligence: Seller to provide Buyer all diligence items in the seller’s possession.

Financial Capability: The purchase of the property and all renovations will be cash funded. This leaves the financial involvement for the City of Firebaugh to a minimum. Financial inquiries should be directed to our CFO, Suzie Keller at 559-834-6677.
Proposed use of the Property: Multi-family residential dwelling consisting of 21 apartments. Both parcels involved are currently zoned for residential housing, which conforms to the City’s 2030 General Plan. With the property being centrally located, the City of Firebaugh can only benefit by the boost in its overall appearance with this extensive upgrade. The renovated apartments should have a nominal environmental impact and only enhance the benefiting taxing entities by the increased property value.

Renovation: Estimating the renovation costs to fall between $200,000 and $250,000, with a timeframe for completion within 3 months after the close of escrow. Listed are the inclusions that will be addressed and either replaced, repaired or added during the renovation process: stucco, fascia, wood structures, roof, parking lot surface, building and parking lot lighting, landscaping, new paint, addition of satellite TV and the complete renovation of all 21 apartment units.
