STAFF REPORTS

- City Attorney James Sanchez – two items, 1) 2021 Brown Act update book will be provided to Council, 2) Webinar being offered for AB1234 between 9am-11am on Thursday, February 11, 2021.
- Finance Director, Pio Martin – Working with the Auditors, they may be submitting the draft this week, will bring to council at Tuesday's special meeting. This month, there will be an increase to utility rates, Will start working on the budget, so please submit items that are needed or wanted for the next budget.
- City Engineer, Mario Gouveia – Update on sewer project, weather caused a halt last week, but it is still on schedule.
- Fire Chief, John Borboa – taking care of citizens and responding to calls.
- Police Chief, Sal Raygoza – Received an email link regarding app for COVID-19 Cases, we are good compared to other cities on cases in the city. Officers are doing a great job.
- Mrs. Dale of Senator Anna Caballero' Office – Senator is concerned about how the city is doing on covid-19 vaccinations. Council Member Sablan replied with the help of Mark Benjamin & Mr. Pacheco offices, we've been able to provide the vaccines to local farmworkers. We are working on obtaining a freezer & thermometer to create a local vaccine site in Mendota to be equally shared between Firebaugh & Mendota. Mr. Benjamin stated there is still a shortage on vaccines for Fresno County & with a second doses needed, we have to conserve what we currently have to be able to provide the individuals that received their first shot, so it causes an issue to provide to others that need their first vaccine. Mrs. Dale, added, the Senator is willing to refuse to take a vaccine shot until the farmworkers receive their vaccines first.
- City Manager, Ben Gallegos – Sewer line project is going smooth, with no complaints. 8th Street is going to bid for sidewalks, curb & gutter project. VFW is on scheduled for completion in April. Hoping to be starting the Fire Station project in three weeks. Thanked Public Works Department for doing an awesome job, there was no real flooding in the street, did have two trees come down & we offered to help but they owners had to sign a waiver for damage, if city employees helped with the removal of the tree on their property. There is sand bags available for anyone that is interested.
- Council Member Lopez – thanked the staff for the good job everyone is doing, Police, Fire, Public Works Departments and City Hall staff.
- Council Member Sablan – I also like to thank everyone & Ben for trimming the Rose Garden, it looks really good.
- Council Member Perez – nothing to report, but would agree with Council Members Lopez & Sablan & thank everyone.
- Council Member Jenkins – Nothing to report, also agreed with the Council Members & thanked staff.
- Council Member Valdez – Echoed what the previous Council Members said, and thanked the staff, the daily operations doesn't function without all of you guys, you are all greatly appreciated. Working with COG on housing opportunities & resources. As well as with transportation to get a charging station, & signed a letter of support. COVID-19 cases are on the rise with 30 new cases in the week, we must lead by example to keep the number down.
- Deputy City Clerk, Rita Lozano – Please complete your Form 700, it's time again, you can provide a hard copy or complete on the website. For those of you that would like to attend the training provided by Lozano Smith, email mail me or you can register yourself, I emailed you the information last week.

CLOSED SESSION *None*

ADJOURNMENT *Motion to adjourn by Council Member Jenkins, second by Council Member Perez; motion passed by 5-0 vote at 6:57 p.m.*

STAFF REPORT

AGENDA ITEM: **RESOLUTION NO. 21-06 - A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FIREBAUGH AUTHORIZING APPLICATION FOR, AND RECEIPT OF, LOCAL GOVERNMENT PLANNING SUPPORT GRANT PROGRAM FUNDS.**

MEETING DATE: **February 16, 2021**

PREPARED BY: **Michael Sigala**

RECOMMENDATION:

Staff recommends City Council Approve Resolution 21-06, Authorizing Submittal of a LEAP Grant Application.

BACKGROUND:

The State Department of Housing and Community Development (HCD) recently released a Notice of Funding Availability (NOFA) for the LEAP Program to make funding available to all local governments in California to streamline housing approvals and accelerate housing production. This program is part of the State's efforts to ramp up housing production throughout the State. These funds are non-competitive and based on a qualifying application. The funding available to the City of Firebaugh is \$65,000.

DISCUSSION:

The City intends to utilize the LEAP funding to: 1) complete the Accessory Dwelling Unit (ADU) ordinance adoption and develop three architectural prototypes for use by the public, and 2) conduct a feasibility study and architectural prototype for mixed-use (commercial and residential) development options for Downtown Firebaugh.

The application was submitted for a total of \$65,000 and an approved resolution is needed.

FISCAL IMPACT:

There is no adverse fiscal impact to the City of Firebaugh.

ATTACHMENTS:

1. Resolution 21-06, for LEAP Planning Grant Application Submittal

RESOLUTION NO. 21-06

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FIREBAUGH AUTHORIZING APPLICATION FOR, AND RECEIPT OF, LOCAL GOVERNMENT PLANNING SUPPORT GRANT PROGRAM FUNDS

WHEREAS, pursuant to Health and Safety Code 50515 et. Seq, the Department of Housing and Community Development (Department) is authorized to issue a Notice of Funding Availability (NOFA) as part of the Local Government Planning Support Grants Program (hereinafter referred to by the Department as the Local Early Action Planning Grants program or LEAP); and

WHEREAS, the “City Council” of the City of Firebaugh desires to submit a LEAP grant application package (“Application”), on the forms provided by the Department, for approval of grant funding for projects that assist in the preparation and adoption of planning documents and process improvements that accelerate housing production and facilitate compliance to implement the sixth cycle of the regional housing need assessment; and

WHEREAS, the Department has issued a NOFA and Application on January 27, 2020 in the amount of \$119,040,000 for assistance to all California Jurisdictions;

Now, therefore, the “City Council” of the **City of Firebaugh** (“Applicant”) resolves as follows:

SECTION 1. The City Manager of the City of Firebaugh is hereby authorized and directed to apply for and submit to the Department the Application package;

SECTION 2. In connection with the LEAP grant, if the Application is approved by the Department, the City Manager of the City of Firebaugh is authorized to submit the Application, enter into, execute, and deliver on behalf of the Applicant, a State of California Agreement (Standard Agreement) for the amount of \$65,000 and any and all other documents required or deemed necessary or appropriate to evidence and secure the LEAP grant, the Applicant’s obligations related thereto, and all amendments thereto; and

SECTION 3. The Applicant shall be subject to the terms and conditions as specified in the NOFA, and the Standard Agreement provided by the Department after approval. The Application and any and all accompanying documents are incorporated in full as part of the Standard Agreement. Any and all activities funded, information provided, and timelines represented in the Application will be enforceable through the fully executed Standard Agreement. Pursuant to the NOFA and in conjunction with the terms of the Standard Agreement, the Applicant hereby agrees to use the funds for eligible uses and allowable expenditures in the manner presented and specifically identified in the approved Application.

PASSED AND ADOPTED at a special meeting of the *City Council of the City of Firebaugh* held on *February 16, 2021* by the following vote:

To the Honorable Mayor and City Council
City of Firebaugh, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Firebaugh for the year ended June 30, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and, if applicable, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 4, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by City are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the City's financial statements were:

Management has determined the economic useful lives of fixed assets based on past history of similar types of assets, future plans as to their use, and other factors that impact their economic value to the City. We evaluated the key factors and assumptions used by management in computing depreciation expense and believe that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the allowance for doubtful accounts is based on an evaluation of collectability primarily focused on past due accounts. We evaluated the key factors and assumptions used to develop the allowance for doubtful accounts in determining that it is reasonable in relation to the financial statements as a whole.

Management's estimate of the net pension liability and Net OPEB liability and related deferrals is based on actuarial valuations which include significant assumptions regarding discount rate, inflation, payroll growth, projected salary increases and investment rate of return. We evaluated the key factors and assumptions used to develop the liability and related deferrals in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 9, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to City of Firebaugh's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as City of Firebaugh's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

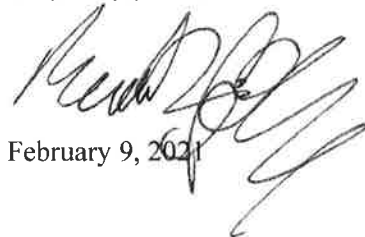

We applied certain limited procedures to the Budgetary Comparison Schedules, Proportionate Share of Net Pension Liability, and Schedule of Contributions which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, as listed in the table of contents, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council
City of Firebaugh, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Firebaugh, California, (the City) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Firebaugh, California, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, Schedule of Changes in City's Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of Net Pension Liability and Schedule of Contributions on pages 44 – 45, page 46, page 47, and page 48, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

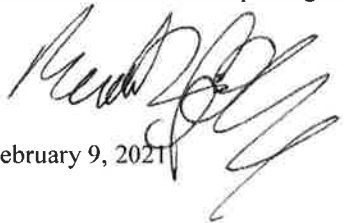

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Firebaugh's basic financial statements. The combining and individual nonmajor financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated February 9, 2021, on our consideration of the City of Firebaugh's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Firebaugh's internal control over financial reporting and compliance.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies

The financial statements of the City of Firebaugh (the City) have been prepared in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP) as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

These financial statements present the government and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the government's operations and data from these units is combined with data of the primary government. Each blended component unit has a June 30 fiscal year end. There are no discretely presented component units included in these financial statements. The following sections further describe the significant accounting policies of the City.

Reporting Entity

The City of Firebaugh, State of California (the "City"), was incorporated in 1914. The City operates under a Council-Manager form of government. The City's major operations include public safety; highways and streets; water and sewer; parks and recreation; building inspection; public improvements; planning and zoning, and general administrative services.

Basis of Presentation – Fund Accounting

Government-Wide Financial Statements - The Government-Wide Financial Statements (the Statement of Net Position and the Statement of Activities and Changes in Net Position) report information of all of the nonfiduciary activities of the primary government and its component units. For the most part, eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the City and between the City and its component unit. Governmental activities, which normally are supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely significantly on fees charged to external parties.

The Statement of Activities and Changes in Net Position presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Net position is restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

Governmental Fund Financial Statements - The Governmental Fund Financial Statements provide information about the City's funds, including fiduciary funds and the blended component unit. Separate statements for each fund category - governmental, proprietary and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are separately aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The City reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the City. It is used for all financial resources except those required legally, or by sound financial management to be accounted for in another fund. Generally, the General Fund is used to account for those traditional governmental services of the City, such as police and fire protection, planning and general administrative services.

Community Development Fund – The Community Development Fund was established to account for the monies received from various sources which are to be used for the design and construction of various projects.

Housing Fund – The Housing Fund is used to account for grant revenues and expenditures related to housing assistance loans for low income individuals (HOME grants) and businesses (Low Moderate Housing Assets).

The City reports the following additional fund types:

Private-Purpose Trust Fund – The Private-Purpose Trust Fund accounts for assets held by the City as trustee for the Successor Agency.

Basis of Accounting

The Government-Wide and Proprietary Fund Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligible requirements have been satisfied.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as non-operating.

Financial Statement Amounts

Cash and Investments – Cash and investments represent the City's cash bank accounts including but not limited to certificates of deposit, money market funds and cash management pools for reporting purposes in the Statement of Cash Flows. Additionally, investments with maturities of three months or less when purchased are included as cash equivalents in the Statement of Cash Flows.

The City maintains a cash and investment pool that is available for use by all funds. Interest earnings as a result of this pooling are distributed to the appropriate funds based on month end cash balances in each fund.

Investments of the pool include only those investments authorized by the California Government Code such as, United States Treasury securities, agencies guaranteed by the United States Government, registered state warrants, and other investments. Investments primarily consist of deposits in the State of California Local Agency Investment Fund. Investments are stated at cost or amortized cost.

Accounts Receivable – Billed but unpaid services provided to individuals or non-governmental entities are recorded as accounts receivable. The Proprietary Funds include a year-end accrual for services through June 30, 2020, which have not yet been billed.

Fresno County is responsible for the assessment, collection and apportionment of property taxes for all taxing jurisdictions. Secured and unsecured property taxes are levied on January 1 of the preceding fiscal year. Secured property taxes are due in two installments, on November 1 and March 1, and become a lien on those dates. They become delinquent on December 10 and April 10, respectively. Collection of delinquent accounts is the responsibility of the County, which retains all penalties collected. Property taxes are accounted for in the General Fund. Property tax revenues are recognized when they become measurable and available to finance current liabilities. The City considers property taxes as available if they are collected within 60 days after year end. Property tax on the unsecured roll are due on July 1 and become delinquent if unpaid on August 31. However, unsecured property taxes are not susceptible to year end accrual.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

The City is permitted by Article XIII A of the State of California Constitution (known as Proposition 13) to levy a maximum tax of \$1.00 per \$100 of full cash value.

Interfund Receivables/Payables – Items classified as interfund receivable/payable represent short-term lending/borrowing transactions between funds. This classification also includes the current portion of an advance to or from another fund.

Advances To/From Other Funds – This classification represents non-current portions of any long-term lending/borrowing transactions between funds. This amount will be equally offset by a reserve of fund balance which indicates that it does not represent available financial resources and therefore, is not available for appropriation. The current portion of any interfund long-term loan (advance) is included as an interfund receivable/payable.

Capital Assets – Capital outlays are recorded as expenditures of the General, Special Revenue, and Capital Projects Funds and as assets in the Government-Wide Financial Statements to the extent the City's capitalization threshold are met.

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the Government-Wide Financial Statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of fixed assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

<u>Depreciable asset</u>	<u>Years</u>
Buildings	10-40
Improvements	10-40
Machinery and equipment	3-20
Utility system	5-50
Infrastructure	15-50

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

Compensated Absences – It is the City's policy to permit all employees to accumulate earned but unused vacation and compensatory time benefits. Those employees on shift work schedules may also accumulate hours for holiday time benefits.

Vested or accumulated vacation, holiday and any compensation time that is expected to be paid with expendable available financial resources is reported as expenditure in the fund financial statements of the Governmental Fund that will pay for it. Amounts not expected to be liquidated with expendable available financial resources are reported in the Government-Wide Financial Statements.

Vested leave of Proprietary Funds are recorded as an expense and liability as the benefits accrue.

Sick leave can be accumulated, but vesting is limited and will not be paid upon termination. However, in past years unused sick leave could be used to pay post-employment health insurance. One retiree has unused benefits of \$84,776 at year end and this amount is reported as a compensated absence liability. For this reason, the City does not accrue any costs relating to sick leave.

Unearned Revenue – Unearned revenue is that for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The City typically records unearned revenue related to uncollected outstanding, performing loans and intergovernmental revenues (primary grants and subventions) received but not earned (qualifying expenditures not yet incurred).

Long-Term Obligations – In the Government-Wide Financial Statements, and Proprietary Fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund Type Statement of Net Position. Debt principal payments of both government and business-type activities are reported as decreases in the balance of the liability on the Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, however, debt principal payments of Governmental Funds are recognized as expenditures when paid. Governmental Fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Non-Current Governmental Assets/Liabilities – GASB Statement No. 34 eliminates the presentation of account groups, but provides for these records to be maintained and incorporates the information into the Governmental Activities column in the Government-Wide Statement of Net Position.

Pension Plan – All full-time City employees are members of the State of California Public Employees' Retirement System. The City's policy is to fund all pension costs accrued; such costs to be funded are determined annually as of July 1 by the System's actuary. See note 9 for further discussion.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

Bond Discount and Issuance Costs – For governmental funds, bond discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as other financing sources net of the applicable discount. Issuance costs, whether or not withheld from the actual net proceeds received, are reported as debt service expenditures. For business-type funds, bond discounts, are deferred and amortized over the life, of the bonds. Bonds payable are reported net of applicable bond discounts. Issuance costs are expensed.

Net Position/Fund Balance – The government-wide and business-type activities fund financial statements utilize a net position presentation. Net position are categorized as net investment in capital assets, restricted and unrestricted.

- Net Investment in Capital Assets – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted Net Position – This category presents external restrictions on net position imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This category represents net position of the City, not restricted for any project or other purpose.

Fund Balance – In the fund financial statements, governmental fund balance is made up of the following components:

- Nonspendable fund balance typically includes inventories, prepaid items, and other items that must be maintained intact pursuant to legal or contractual requirements, such as endowments.
- Restricted fund balance category includes amounts that can be spent only for specific purposes imposed by creditors, grantors, contributors, or laws or regulations of other governments or through enabling legislations.
- Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City Council. The City Council has the authority to establish, modify, or rescind a fund balance commitment.
- Assigned fund balance are amounts designated by the City Council for specific purposes and do not meet the criteria to be classified as restricted or committed.
- Unassigned fund balance is the residual classification that includes all spendable amounts in the General Fund not contained in other classifications.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 1 – Summary of Significant Accounting Policies (Continued)

When expenditures are incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balances are available, the City's policy is to apply restricted first. When expenditures are incurred for purposes for which committed, assigned, or unassigned fund balances are available, the City's policy is to apply committed fund balance first, then assigned fund balance, and finally unassigned fund balance.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Stewardship, Compliance and Accountability

California law authorizes the City to invest in obligations of the United States Treasury, agencies and instrumentalities, certificates of deposit or time deposits in banks and savings and loan associations which are insured by the Federal Deposit Insurance Corporation.

In accordance with applicable sections of the California Government Code and the Firebaugh Municipal Code, the City prepares and legally adopts an annual balanced budget on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the General Fund, specific Special Revenue Funds, and specific Capital Projects Funds. Budget plans are adopted for Proprietary Funds. A proposed budget is presented to the City Council during June of each year for review. The Council holds public hearings and may add to, subtract from, or change appropriations within the revenues and reserves estimated as available. Expenditures may not legally exceed budgeted appropriations at the fund level. Supplementary appropriations which alter the total expenditures of any fund, or expenditures in excess of total budgeted fund appropriations, must be approved by the City Council.

All annual appropriations lapse at fiscal year end to the extent they have not been expended or encumbered.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 3 – Cash and Investments

The City pools all of its cash and investments except those funds required to be held by outside fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash is allocated to the various funds on average cash balances. Interest income from cash investments held with fiscal agents is credited directly to the related funds.

Cash and investments as of June 30, 2020 are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and Investments	\$ 14,599,800
Fiduciary Funds:	
Cash and Investments	<u>812,232</u>
Total Cash and Investments	<u>\$ 15,412,032</u>

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that categorizes the inputs to valuation techniques used to measure fair value into three levels. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2: Inputs to valuation methodology include inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 3 – Cash and Investments (Continued)

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments Authorized by the California Government Code and the City's Investment Policy

The table below identifies the investment types that are authorized for the City by the California Government Code (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. The City's investment policy does not contain any specific provisions intended to limit the City's exposure to interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of June 30, 2020 the City had the following investments.

Investment Type	June 30, 2020	
	Balance	Maturity Date
Equity Securities:

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

Investment Type	June 30, 2020 Balance	Minimum Legal Rating	Rating of Year End
Equity Securities:			
LAIF	\$ 2,563,856	N/A	Not Rated
Total Equity Securities	<u>\$ 2,563,856</u>		

Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of the total City investments.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

CITY OF FIREBAUGH

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2020

Note 3 – Cash and Investments (Continued)

The custodial risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 4 – Notes Receivable

Revolving Loan Program – Long-term loans receivable of \$1,405,293 represent monies loaned to homebuyers in connection with a downpayment assistance programs. The loans are secured by real property with repayment due upon the sale of real property or starting at the end of the 30 year deferral period. At the time of sale, the seller pays the loan balance in full plus interest, ranging from 0% to 4%. For the homebuyer loan program, starting at the end of the 30 year deferral period, the borrower is required to repay the loan over the following 15 years.

Firebaugh San Joaquin Vista Associates – During fiscal year 2000, the Redevelopment Agency of the City of Firebaugh loaned Firebaugh San Joaquin Vista Associates \$200,000 as a subsidy in connection with a low income apartment. The note carries an interest rate of 3% and matures during 2055. The terms of the agreement specify that payments of the outstanding principal and accrued interest shall be paid annually in the amount equal to 30% of available project revenues. Payments made shall be credited first against accrued interest and then against outstanding principal. There have been no required payments to date on this note.

San Joaquin Development LLC – During fiscal year 2009, the Redevelopment Agency of the City of Firebaugh loaned San Joaquin Development LLC \$150,000 in connection with the construction of low-income condominiums. The note is non-interest bearing and is repayable upon sale of each unit at the rate of \$7,134 per unit. There have been no repayments on principal to date on this note.

Note 8 – Deficit Fund Balance

Fund Balance Deficits – The Community Development Fund has a deficit fund balance as of June 30, 2020 of \$35,023. The deficit is expected to be relieved from future revenues or transfers from other funds.

Note 9 – Pension Plan

Plan Description – The City contributes to the California Public Employees' Retirement System (PERS), an agent multiple-employer public employee defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and city ordinance. Copies of PERS' annual financial report may be obtained from their Executive Office - 400 P Street - Sacramento, CA 95814.

Funding Policy – Participants are required to contribute eight percent (nine percent for safety employees) of their annual covered salary. The City contributes the employees required share for administrative and public works employees and 5% and 4% of the police and dispatchers required share, respectively. The City is required to contribute at an actuarially determined rate; the current rate is 6.985 – 11.432 percent for non-safety employees and 13.034 – 20.073 percent for safety employees of annual covered payroll. The contribution requirements of plan members and the City are established and may be amended by PERS.

Benefits provided – CalPERs provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2020, the City reported net pension liabilities for its proportionate shares of the net pension liability as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	\$ 1,337,483
Safety	2,158,924
Total	<u>\$ 3,496,407</u>

The City's net pension liability is measured as the proportionate share of the net pension liability. The net pension liability of each Plan is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability for the Plan as of June 30, 2019 and 2020 was as follows:

	Miscellaneous	Safety

Note 9 – Pension Plan (continued)

All other actuarial assumptions used in the June 30, 2018 valuation was based on the results of an December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015), including updates to salary increase, mortality and retirement rates. The Experience Study can be obtained at CalPERS' website.

Change of assumptions – None.

Discount rate – The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected rate of returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The long-term expected real rates of return by asset class can be found in CalPERS' Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019.

Note 10 – Post-Employment Health Care Benefits

Plan Description

The City reported that the only OPEB provided is medical plan coverage.

Medical coverage is currently provided through CalPERS as permitted under the Public Employees' Medical and Hospital Care Act (PEMHCA). This coverage requires the employee to satisfy the requirements for retirement under CalPERS, which requires (1) attainment of age 50 (age 52, if a new miscellaneous member to PERS on or after January 1, 2013) with 5 years of State or public agency service or (2) an approved disability retirement.

As a PEMHCA employer, the City is obligated to contribute toward the cost of retiree medical coverage for the retiree's lifetime or until coverage is discontinued. This City most recently executed resolution with CalPERS defines the level of the City's contribution to be 100% of the retiree's monthly medical premium, but not more than \$347.77 per month.

Employees Covered

Membership in the plan consisted of the following at June 30, 2020, the date of the latest actuarial valuation:

Summary of Plan Member Counts	
Number of active plan members	36
Number of inactive plan members currently receiving benefits	6
Number of inactive plan members entitled but not receiving benefits	0

Contributions

The contribution requirements of plan members and the City are established and may be amended by the City. The City determines the required contributions using the Entry Age Normal Cost Method. The required contribution is based on projected pay-as-you-go financing requirements.

Actuarial Assumptions

The City's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation date as of June 30, 2018.

Valuation Date	6/30/2018
Funding Method	Entry Age Normal Cost, level percent of pay
Asset Valuation Method	Market Value (\$0, plan is not yet funded)
Actuarial Assumptions:	
Discount Rate	2.79% as of June 30, 2019 2.98% as of June 30, 2018
Inflation Rate	2.75%
Salary Increase	3.25%
Health Cost Trend Rates	Medical premiums and claims costs by age are assumed to increase once each year. The increases over the prior year's levels are assumed to be effective on the dates shown below:

Effective January 1	Premium Increase
2020	7.0%
2021	6.5%
2022	6.0%
2023	5.5%
2024 & later	5.0%

The PEMHCA minimum required contribution (MEC) is assumed to increase annually by 4.5 %

Mortality rate	Pre-retirement mortality rates were based on the CalPERS 2014 experience study. Mortality Improvement rates were based on the MacLeod Watts Scale 2017 applied generationally from 2018.
----------------	--

Long Term Expected Rate of Return

Not applicable, the City has reported no plan assets as of June 30, 2020.

Discount Rate

The rate of return is based on a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Note 11 – Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items to report in this category:

- The City has \$958,682 in pension related items that qualify to be reported in deferred outflows of resources. The pension related deferred outflows of resources are described in Note 9.
- The City has \$313,697 in other post-employment benefit related items that qualify to be reported in deferred outflows of resources. The other post-employment benefit related deferred outflows of resources are described in Note 10.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items to report in this category:

- The City has \$490,750 in pension related items that qualify to be reported in deferred inflows of resources. The pension related deferred inflows of resources are described in Note 9.
- The City has \$221,857 in other post-employment benefit related items that qualify to be reported in deferred inflows of resources. The other post-employment benefit related deferred inflows of resources are described in Note 10.
- Unavailable revenues arise only under a modified accrual basis of accounting and is reported only in the governmental funds balance sheet. The City has \$1,755,293 in notes and loans receivable reported in the Housing Fund as deferred inflows of resources reported for unavailable revenues.

Note 13 – Risk Management

The City participates with other public entities in a joint venture under a joint powers agreement which establishes the Central San Joaquin Valley Risk Management Authority (CSJVRMA). The relationship between the City and CSJVRMA is such that CSJVRMA is not a component unit of the City for financial reporting purposes.

The City is covered for the first \$1,000,000 of each general liability claim and \$500,000 of each worker's compensation claim through the CSJVRMA. The City has the right to receive dividends or the obligation to pay assessments based on a formula which, among other expenses, charges the City's account for liability losses under \$10,000 and workers' compensation losses under \$10,000. The CSJVRMA purchases excess reinsurance from \$1,000,000 to \$15,000,000. The CSJVRMA participates in an excess pool which provides Workers' Compensation coverage from \$500,000 to \$1,500,000 and purchases excess reinsurance above \$1,500,000 to the statutory limit.

The CSJVRMA is a consortium of 55 cities in San Joaquin Valley, California. It was established under the provisions of California Government Code Section 6500, et. seq. The CSJVRMA is governed by a Board of Directors, which meets three to four times each year, consisting of one member appointed by each member city. The day-to-day business is handled by a management group employed by the CSJVRMA. The financial statements of CSJVRMA can be obtained at 1831 K Street, Sacramento, CA 95814.

The latest audited financial information and the most current information available for CSJVRMA for fiscal year ended June 30, 2019 is as follows:

Total assets	\$ 128,442,162
Total liabilities	<u>109,661,346</u>

Federal and State Government Programs – The City participates in several federal and state grant programs. These programs have been audited, as needed, in accordance with the provisions of the Uniform Guidance and applicable state requirements. No cost disallowances were proposed as a result of these audits. However, these programs are still subject to further examination by the grantors and the amount, if any, of expenditures, which may be disallowed by the granting agencies, cannot be determined at this time. The City expects such amounts, if any, to be immaterial.

Note 16 – Subsequent Events

The City evaluated subsequent events for recognition and disclosure through February 9, 2021 the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since June 30, 2020 that required recognition or disclosure in such financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and City Council
City of Firebaugh, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Firebaugh, California, (the "City") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise City's basic financial statements, and have issued our report thereon dated February 9, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink, appearing to be "Michael J. [unclear]", is written over the date.
